- Ever available team of in-house support staff from highly specialised backgrounds
- Wide range of equipment
- World class sound system
- Comprehensive in-house inventory

TESTIMONIALS

“Globally, we often find difficulty in the marriage of corporate venues and advanced technical suppliers, but this is most definitely not the case at Marina Bay Sands.”

“Your inventory of equipment is world class, new and maintained, but more importantly the approach, knowhow and experience of your team is second to no other venue we have worked in. In cases where we opt for suppliers who have invested most in kit, we usually see that this isn’t followed through to on-site personnel and so thank you all for your relentless design-to-delivery attention.”

Ian Greenway

Technical director for Deutsche bank event planner

LarMac Live Limited

Deutsche Bank 2011

“Last week’s experience was truly a pleasant one. I was anticipating a lot of fires to put out and a lot of troubleshooting to do, but to my surprise, there wasn’t much I had to deal with at all.”

I wish to extend my sincerest gratitude (to your team) for making that so. Thank you for being so prompt with your correspondences throughout the planning stages, for accommodating the changes leading up to the event dates, and for being truly an expert in your field! Your team even knew how to operate the equipment we rented before the technicians arrived! The usual reaction I would normally get from a Catering or Conference Manager is them picking up the radio and calling for someone else – your team never made me wait.

I wish you all continued success! It was truly a pleasure working with all of you.”

Carmela Vicente

Regional Event Director, North Asia and Southeast Asia

YPO-WPO 2012

“Marina Bay Sands has one of the best technical and production inventories of a hotel or convention Centre across Asia, not to mention the most professional staff and crew. We have produced numerous events within this integrated resort and have always enjoyed great results working with the in-house technical services team.”

Anthony Spanbrook

Managing Director, Asia

Luminous Experiential Marketing Communications

August 2013

"I would like to commend you on the excellent support and professionalism that you unstintingly provided for us throughout the time leading up to the exhibition and gala dinner and at the events themselves. The audio-visual support, food and beverage service, and all other elements that were fundamental to both events went off without a hitch, adding greatly to the guests' enjoyment as well as the success of the events. I especially appreciate your incredible work ethic, graciousness and patience. The Art Outreach staff and I marvel at how well you've managed to oversee every detail.

"Thanks once again to you and your fabulous team. We look forward to the privilege and pleasure of working with you again soon."

Mrs. Mae Anderson
Chairman

Art Outreach Board, Art Outreach Singapore
The Sovereign Asian Art Prize, Singapore 2012 Exhibition

"I would like to extend a huge heartfelt thanks to you, your team and MBS for a wonderful event on 27 January 2012. All our friends and family expressed that this was one of the best wedding events that they have attended in Singapore, and we know that this could not have been executed so well without the help of you and your entire team!

In particular, I would like to highlight that the Indian food was one of the best that we have ever had, and all our guests expressed the same. Do pass on my thanks to Chef Raj, who I think has really outdone himself – paying close attention to all our requests throughout and making the necessary changes. The food at our event was a huge success and the service staff was attentive and catered to all the guests' needs, especially the manager of the VIP table, who had a great 'can do' attitude. Please also pass on my message to Eric, who did a fantastic job with the AV and was hugely accommodating to all the various specifications that were required.

All aspects of the event were fabulous, and again, thank you for your effort and dedication to make this so wonderful!"

Seema Tulshyan
27 January 2012

"Thank you for your professionalism. Everything was as requested and everything worked. While this should be the norm in the industry, it rarely is. After 3000+ paid engagements across 33 countries, this is one of the few times when I was completely satisfied.

"Thank you and God bless you."
