# INTO THE WILD

## An Immersive Virtual Adventure

**Now On | Free**

Not available on 4 - 8 & 16 - 21 Nov

In this multi-award winning installation, make a real-world impact on nature as you go on a virtual adventure using Tango, a cutting-edge interactive technology by Google, which transforms over 1,000 square metres of ArtScience Museum into a virtual rainforest.

Conclude with a spectacular cinematic experience about the fragile rainforest habitat, directed by Singapore's renowned filmmaker Brian Gothong Tan.

### **Make a real-world difference**

Plant a virtual tree, make a pledge to WWF and a real tree will be planted on your behalf to restore rainforests in Rimbang Baling – home to many endangered animals in Sumatra, Indonesia. You will receive photos of the tree as it grows and its exact geographic coordinates, so you can watch it grow on Google maps!

# SPECTERS AND TOURISTS

11 Nov - 17 Dec | Free  
Level 3

ArtScience Museum is proud to co-organise with the Singapore International Film Festival a new film installation by Japanese filmmaker and artist Daisuke Miyazaki.

*Specters and Tourists* is a two-part film installation that depicts urban life, and scenes from Singapore, as seen through the eyes of Daisuke Miyazaki.

In the first part of the installation, *Specters*, Miyazaki weaves scenes from existing footage into a new multi-screen portrait of characters trapped like ghosts, or specters, in their everyday lives. In fragments we follow them, as they oscillate repeatedly between life and death, human and animal forms, and feelings of bland uniformity and seclusion.

By contrast, in the accompanying installation, *Tourists*, two friends, played by Nina Endo and Sumire Sato, win a lottery ticket and travel abroad on a whim. Their adventures lead them to Singapore. Unexpected encounters in unfamiliar surroundings cause them to explore a new side of the city, and in the process discover a new side of themselves.

*This inaugural exhibition of Specters and Tourists is co-organised by ArtScience Museum and Singapore International Film Festival.*

## ARTSCIENCE ON SCREEN

*ArtScience on Screen* explores the intersection between art and science using moving image, video and film. This rolling programme includes solo showcases, curated programmes, feature-length films, multi-screen presentations and creative documentaries, featuring exciting filmmakers and artists from Singapore and beyond.

### 5 TO 9

**5 Nov – 5 Dec**

**Classification: NC16**

A collaborative project by Tay Bee Pin (Singapore), Daisuke Miyazaki (Japan), Vincent Du (China) and Rasiguat Sookkarn (Thailand), *5 to 9* comprises four short films that transpire from 5pm to 9am on the evening of the historic Brazil-Germany match at World Cup 2014, spanning intimate vignettes of unrequited love and final meetings.

*This screening of 5 to 9 is co-presented by ArtScience Museum and Singapore International Film Festival.*

Free admission.

For dates and timings, please visit [MarinaBaySands.com/ArtScienceMuseum](http://MarinaBaySands.com/ArtScienceMuseum)

## ARTSCIENCE LATE

**Thursday - 16 Nov | 7pm - 10pm**

Every third Thursday evening each month, ArtScience Museum keeps its doors open straight through until 10pm offering free performances, late exhibition viewings and special 1-for-1 entry to exhibitions (7pm-10pm).

### ARE & DAISUKE MIYAZAKI

Experience this immersive and exuberant performance, *All Life is Tour*, by independent sound project and art rock band, ARE, and directed by Japanese filmmaker, Daisuke Miyazaki. Live improvised music and filmic images of anonymous suburbs and everyday landscapes create a unique encounter for each viewer, moving in and out of life as both specter and spectator.

*This performance is held in conjunction with the inaugural exhibition of Specters and Tourists, co-organised by ArtScience Museum and Singapore International Film Festival.*

Free on a first-come, first-served basis.

For more details, please visit [MarinaBaySands.com/ArtScienceMuseum](http://MarinaBaySands.com/ArtScienceMuseum)

## CONVERSATIONS

### UNDERLYING NATURE

Saturday - 25 Nov | 2pm

Expression Gallery, Level 4

Natural history is essential to expanding our understanding of the diversity of life in a rapidly changing world – a 4.5 billion-year-old story that is continuing to unfold. It is deeply marked by human curiosity and longing, representing our attempts to make sense of nature. Yet it also reveals our complicated relationship with it, exposing our hopes and fears, and questioning about our place in natural world.

Held in conjunction with the opening of *Treasures of the Natural World*, *Conversations* invites you to contemplate our encounters with natural environments and consider our connection to an extraordinarily complex, fragile network of interconnected natural systems.

## SPECIAL EVENTS

### LIVE PRINTING WITH FICTIVE FINGERS

Family Fridays - 3, 10, 17 & 24 Nov | 4:30pm - 5:30pm

Rainbow Room, Level B2

Have a hand at printing your very own tote bag featuring exclusive prints designed by Fictive Fingers. Create your own print combination and colourway, and learn more about the printing process.

*Fictive Fingers is a sister duo handprinted textile design studio by Hani and Aisah Dalduri.*

\$15 per participant. Up to 25 participants on a first-come, first-served basis.

For more details, please visit [MarinaBaySands.com/ArtScienceMuseum](http://MarinaBaySands.com/ArtScienceMuseum)

# 28th Singapore International Film Festival
