Marina Bay Sands celebrates National Day with the re-opening of Hotel Towers 2 and 3

Rooms across all three Hotel towers open for public booking from 1 August, with attractive staycation and dining offers throughout the month

Singapore (30 July 2020) – Marina Bay Sands is set to re-open the rest of its iconic Hotel from 1 August, in time for guests looking to celebrate the National Day long weekend in the heart of Marina Bay. The Hotel, which has completed its tenure as a Stay-Home Notice facility, will resume operations across its Towers 2 and 3, albeit with reduced capacities in light of safe management measures. This comes two weeks after the Hotel re-opened its Tower 1 on 17 July, along with its iconic Infinity Pool as well as other hotel-affiliated amenities and restaurants.

Starting 1 August, restaurants and retailers located in the hotel lobby will also resume operations. Those slated to re-open on 1 August include contemporary Chinese restaurant **BLOSSOM**, as well as **Frey Wille**, **Henry Jacques**, **MCM**, **Richard Mille**, **SK Gold** and **Vilebrequin**.

CÉ LA VI and **LAVO Italian Restaurant & Rooftop Bar**, both located on the Sands SkyPark, will re-open on 4 August. This will be followed by European-inspired patisserie **Origin + Bloom** on 7 August, and celebrity chef restaurant **Adrift by David Myers** on 15 August.

Paul Town, Senior Vice President of Resort Operations, Marina Bay Sands, said, “We are pleased to cross yet another milestone in our re-opening plan with the resumption of our Hotel Towers 2 and 3, in tandem with the nation’s 55th birthday. While it’s still early days, we’re seeing encouraging demand for our staycation packages and it has been great welcoming our regulars back to our restaurants and stores.”

Marina Bay Sands remains committed to the highest standards of hygiene and precautionary measures¹, from safe distancing measures to harnessing technology and innovation.

For example, the Hotel will be introducing a new queue management system in early August to stagger arrivals and control venue capacity at any one time. The system allows guests to first register their interest to check in to the hotel, or access the Pool or Fitness Centre, on their personal mobile devices. They will then receive real-time updates via SMS notification before they turn up at the venues, thus avoiding queues and minimising their exposure to crowds.
