4.1 | GREENER OPTIONS, HEALTHIER CHOICES

Our chefs use only the freshest ingredients and items sourced locally and from around the region to create our great tasting menus, offering sustainable food options that are healthy and delicious.

- All fruit and vegetables in this menu are grown locally or sourced from neighbouring Southeast Asian regions, and selected seafood is from sustainable stock. We make informed choices on where our supplies originate from to reduce our Food Miles.

  Food Miles refer to the carbon footprint based on the distance from where the food is produced to the customer’s plate. The lower the Food Miles, the fresher the product and lower the emission of greenhouse gases during transportation.

- All chicken products are free-range.

  Free-range is a method of farming that allows animals to roam freely, rather than be confined in an enclosure.

- All breads are made from unbleached, unbromated natural wheat.

- Vegetarian options contribute to sustainability by putting less strain on resources required to raise livestock for providing proteins, as well as from overfishing.

Freshly grown herbs from the RISE Herb Garden
