# CONVERSATIONS

## BRANCHES FROM THE SAME TREE: INTEGRATING ARTS AND HUMANITIES WITH SCIENCE AND TECHNOLOGY IN HIGHER EDUCATION

Wednesday | 23 Oct | 7:30pm | Expression Gallery, Level 4

Gunalan Nadarajan will present a passionate plea for cross-disciplinary focus in tertiary education and lead a panel discussion with local educational leaders considering implications and challenges to higher education in the arts, humanities, science and technology in Singapore.

## ARTISTS TALK: ADRIEN M & CLAIRE B

Thursday | 31 Oct | 7:30pm | Expression Gallery, Level 4

Image credit: Romain Etienne

The Adrien M & Claire B Company creates performances and exhibitions that playfully blend reality and virtuality. Meet the founding members Claire Bardainne and Adrien Mondot as they discuss the diverse ways in which a project takes shape within their studio.

Admission is free and on a first-come, first-served basis.

A programme part of Voilah! France Singapore Festival

# CLIMATE: S.O.S

## SEASON OF SUSTAINABILITY

From 1 Sep

ArtScience Museum is proud to present *Climate: S.O.S*, a seasonal focus on the impact of climate change on our oceanic environments. This special showcase forges new connections between our habits as consumers in Asia and the impact on climates in the Arctic, and gives immediate and profound calls-to-action that we can all be a part of through a series of programmes.

## CHANGING COURSE 2019

5 Oct - 3 Nov | Free admission

*Changing Course 2019* is a climate change initiative and exhibition developed by Singapore-based media company Eco-Business in collaboration with ArtScience Museum. The multimedia exhibition features a gallery of photographic prints by a team of award-winning journalists and a VR experience on the global climate crisis. It also presents the global premiere of *Arctic Awakening*, a new short film documentary, shot on location in the Arctic and Singapore.

This initiative raises awareness of the need to urgently respond to our climate crisis and inspires action to address it. It explores humanity's relationship with our planet, outlines the challenges in our current global patterns of consumption and production, and provokes answers to this one central question: How can we change the course of humanity?

### WORKSHOP: EVERYONE CAN CREATE: CLEAN SEAS

Saturday & Sunday | 5 - 6, 19 - 20 & 26 - 27 Oct | 11am - 12pm

Join us in an interactive workshop facilitated by local creative technology studio, MeshMinds, and taught on iPad. Using the Everyone Can Create curriculum from Apple, you will explore photography, drawing, video and music to express your ideas. Transform your creations from 2D to 3D using AR Makr for iPad - a creative toolbox for augmented reality - and place them in the real world before sharing with your friends to spread the global movement to beat plastic pollution and create clean seas for future generations.

Admission is free on a first-come, first-served basis.
