INTRODUCING:
ARTSCIENCE MUSEUM
ArtScience Museum is an iconic cultural landmark in Singapore. Our mission is to explore where art, science, culture and technology come together.
It is here at this intersection of the disciplines that we believe the future is created.
ARTSCIENCE MUSEUM: STRENGTHS

Quality Content and Programming:
Constantly voted as one of the Top Museums in South East Asia

Wide range of exciting topics:
The best of the arts and sciences, with around 7 major exhibitions and over 100 events and programmes each a year

Cutting edge innovations:
Our permanent exhibition, Future World, touring exhibitions, locally curated exhibitions and showcases with leading research institutes and universities
ARTSCIENCE MUSEUM: STRENGTHS
Permanent: Basement 2 | Galleries 1 to 5

*Future World*, is our landmark permanent exhibition. It is a fully immersive 1500 square metre digital universe, where 19 spectacular art installations are brought to life and evolve in real-time through visitor presence and participation.
It is created with teamLab, an award-winning Japanese collective of "ultra technologists" that includes artists, programmers, engineers, CG animators, mathematicians, architects, and designers.
Future World is organised into five themes: Nature, Town, Sanctuary, Park and Space, each of which uses cutting-edge science and technology to create ever-changing, evolving environments, which visitors of all ages are invited to explore, and become part of. Taken as a whole, Future World is a place where art, science and technology meet.
ArtScience Museum also hosts private events including conferences, product launches, cocktail receptions, book launches, parties, private exhibitions, and many other events.
